

Lisa Kane - WCNS Director

A.C.T. for Safety was the first thought that popped into my mind when updating our Preschool Safety / Incident Management Plan. They took the time to do a walk through of our space and offered ideas for where improvements could be made. After the visit, we received an extensive review of everything we talked about at the walk through. I feel extremely supported by Rick and Dan and would recommend to anyone looking to keep their school safe.
